Commenting on the results, **Mr. Sanjay Gaikwad, Managing Director**, said,

“We are pleased to announce a healthy operating and financial performance during the fiscal year 2014-15. The growth prospects for UFO remain robust. We believe that there is a lot of headroom for growth in advertisement revenue, given that the number of minutes sold per show per screen on our network is significantly lower than multiplex chains. We expect this to improve gradually as advertiser engagements further deepen and as we attract new advertisers. We will continue to leverage our current base by also focusing on our synergetic business initiative Caravan Talkies – cinema on wheels, to drive incremental revenues. Our technology platform, differentiated service offering, clear strategic focus and experienced execution and management teams, give us a firm foundation to capture growth in the years to come.”

Mr. Kapil Agarwal, Joint Managing Director, said,

“Both Advertising and VPF delivered healthy growth during the fiscal. This can be attributed to improved utilization of advertisement inventory coupled with higher number of movie releases. Our focus on delivering uninterrupted service on our technology platform to distributors and advertisers, with whom we have healthy relationship, has helped us maintain market leadership. We will continue to leverage our existing platform to drive growth. Overall, we will continue to strive to deliver strong operating performance in the Fiscal Year 2015-16.”
